

KINGSHOT · CROSS-KINGDOM BATTLEFIELD

FLAMEDRAGON TYRANT

A Guide and Proposed Plan · Server 745

A shared plan wins this event. Read this before Sunday and bring your own ideas.

60 players. 6 hours. One throne.

- ◆ This event is won by coordination, not by raw power.
- ◆ This guide is one proposed plan for our server.
- ◆ Every alliance decides its own teams and its own approach.
- ◆ **Take what works. Change what does not.**

THRONE

How to read this guide

THE EVENT

The battlefield, the buffs, the timing.

THE 5 RULES

What decides who wins.

WHO GETS IN

Who should be in the rallies, and the other jobs.

THE FOUR TEAMS

Who does what, and where. Crystal skills.

YOUR RALLY

Troop type, formation, when to tap join.

THE DAY

The clock, hour by hour, and what to change.

What we are trying to win

- ◆ The player who holds the Palace the longest becomes the Flamedragon Tyrant for 30 days.
- ◆ The winner can also give 4 titles to other players.

THE TITLE GIVES

ATK

+10%

DEF

+10%

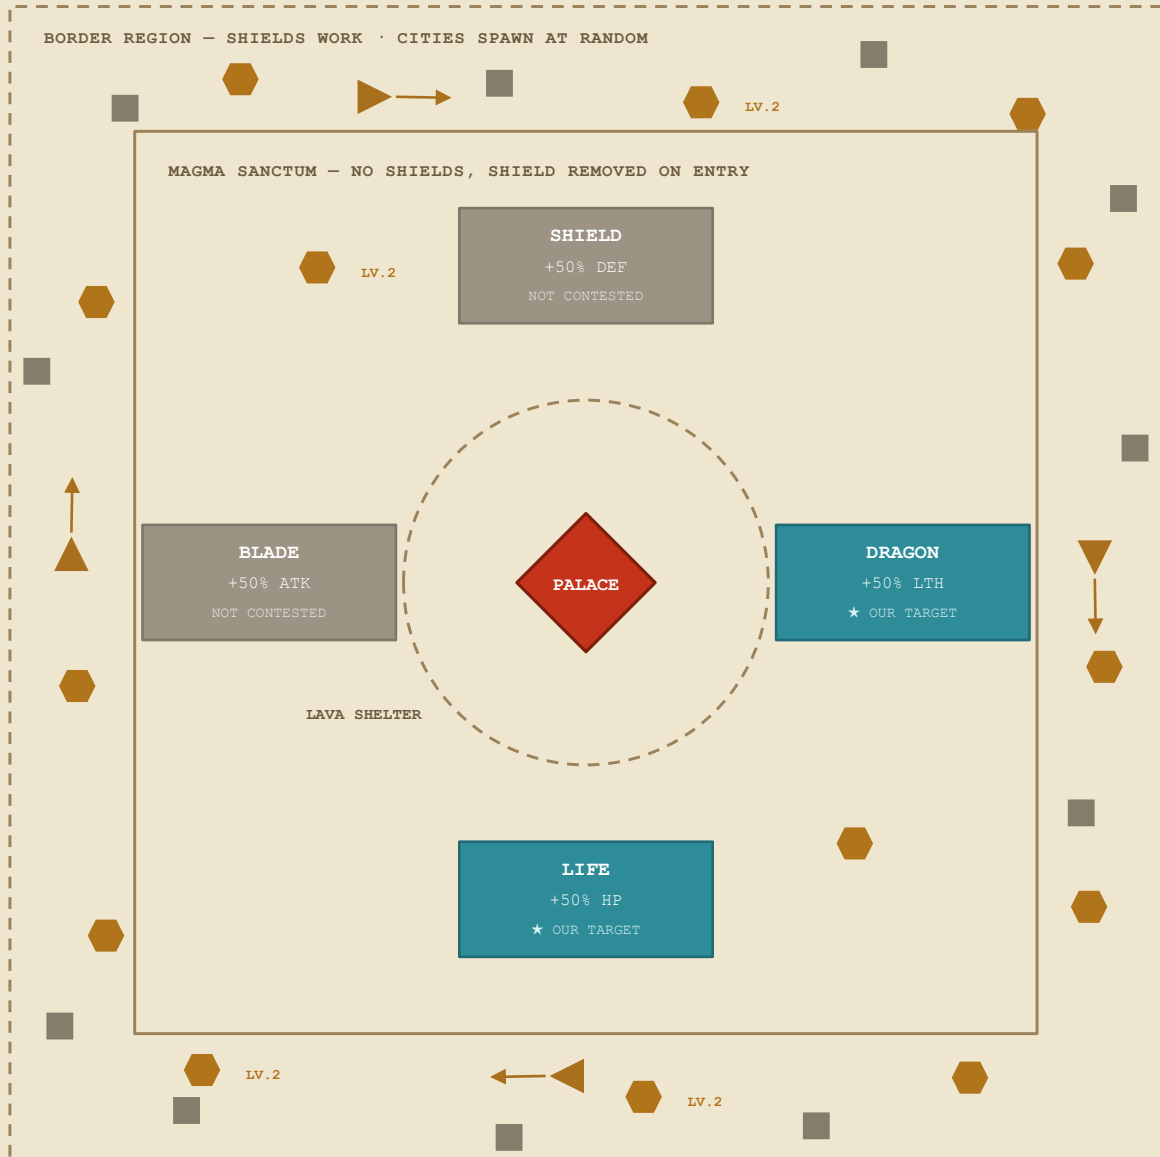

LTH

+10%

HP

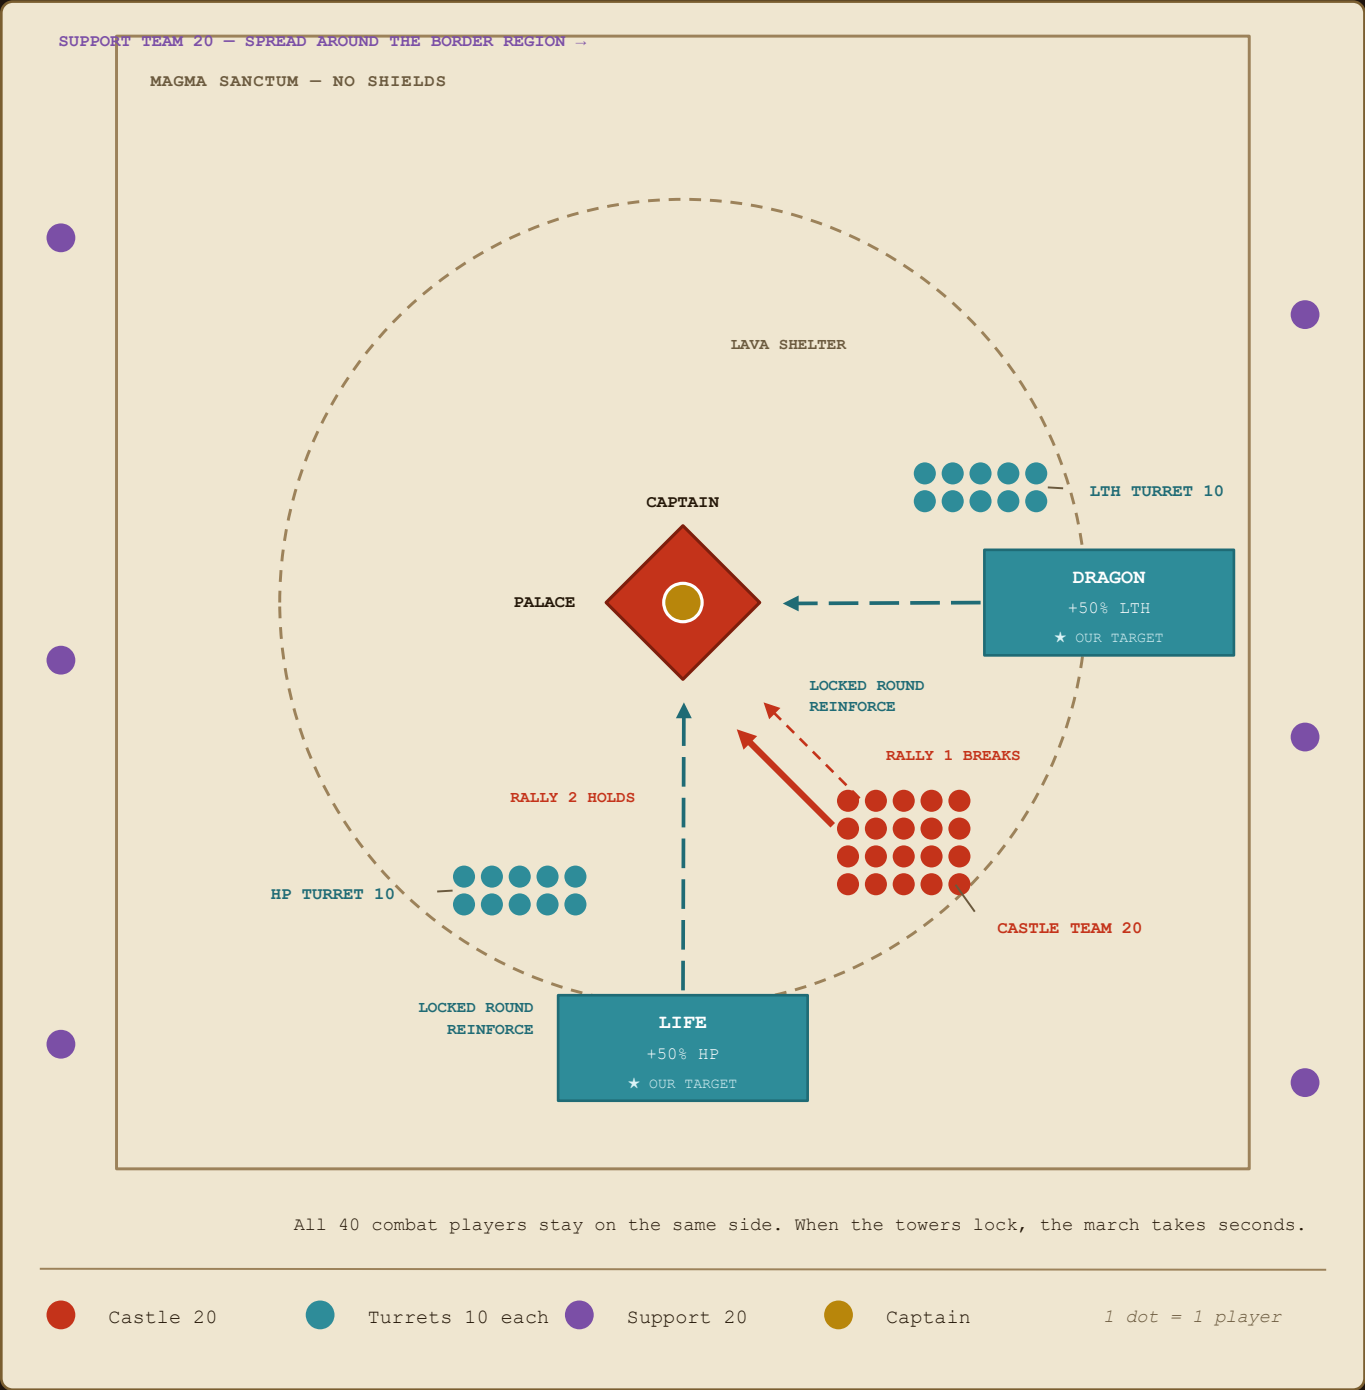

+10%

Map 1 — the battlefield

Mines appear 15 min after the Palace opens, then every 30 min.

Map 2 — the centre, close up

The 4 Aeries

AERIE	SIDE	GIVES
Shield	North	+50% Defense
Life	South	+50% Health
Blade	West	+50% Attack
Dragon	East	+50% Lethality

We take Life (South) and Dragon (East).

The 30/30 rhythm

Each Aerie is open for 30 minutes, then locked for 30 minutes.

OPEN · 30 MIN

Fight for the tower.

LOCKED · 30 MIN

The buff is live. Hit the Palace now.

OPEN 12:00 · 13:00 · 14:00 · 15:00 · 16:00 · 17:00

LOCKED 12:30 · 13:30 · 14:30 · 15:30 · 16:30 · 17:30

Six rounds each. All times UTC.

This is the most important timing in the event.

Only the Garrison Leader's time counts

RULE 1

- ◆ **The Palace timer only counts for the Defence Garrison Leader.**
- ◆ Everyone else in the Palace gets points and rewards. They get 0 seconds of Palace time.
- ◆ So one player must be the Garrison Leader, and stay there.
- ◆ **You should decide who will be the Tyrant before the battle.**

Two Aeries and one crystal officer

RULE 2

- ♦ **Two Aeries. Each one gives +50% of one stat to the whole alliance for 30 minutes.**
- ♦ One person responsible for Crystal Skills. Skills fired at the right moment are worth far more than skills fired when someone panics.
- ♦ Name that person before the battle. One person, not three.
- ♦ Buffs before bodies: attacking the Palace with no buff gives the enemy free kills.

Bufs only work for us

RULE 3

- ◆ Aerie buffs and crystal skills only reach our own alliance.
- ◆ Another alliance holding a tower does not help us.
- ◆ We build our own crystal pool.

Where troops die

RULE 4

WARNING

- ◆ Palace and Aerie fights: troops are only injured. Nobody dies.
- ◆ Attacking a player's town: troops die. Permanently.
- ◆ **Do not attack towns unless R4/R5 tells you to.**

Heal before you leave

RULE 5

WARNING

- ◆ On the battlefield your infirmary is unlimited.
- ◆ When you leave, it goes back to normal size. Everything above that size dies.
- ◆ This kills more troops than the enemy does.
- ◆ **Heal before 19:00. Set an alarm.**

Who should be in the rallies

TG8 and T11 give us more survivability.

- ◆ A rally is limited by the number of troops, not by their tier.
- ◆ Every slot filled with T10 or lower wastes rally space.

This is our suggested minimum, not a server rule.

If you are below that

You are still useful. There is more than one job.

- ◆ The Support Team collects the crystals that pay for our skills.
- ◆ You can also help at an Aerie — tower fights need bodies, not only tiers.
- ◆ Those crystals and those towers decide the last hour.
- ◆ **Each alliance decides its own teams. This is only an idea.**

60 players, 4 teams

TEAM	SIZE	INF	CAV	ARC	JOB
Castle Team	20	11	5	4	The Palace
HP Turret Team	10	5	2	3	Life Aerie, South
Lethality Turret	10	5	2	3	Dragon Aerie, East
Support Team	20	—	—	—	Crystals · any troops

TROOP COLOURS, USED ON EVERY TABLE FROM HERE ON

 INF  CAV  ARC

See Map 2 for where each team stands on the field.

Castle Team · 20 · double rally

20 players = 2 full rallies of 10, at the same time.

	RALLY 1	RALLY 2
Composition	Attack 50/10/40	Defense 60/40/0
Leader	Any strong rally leader	The Tyrant candidate
Job	Push the enemy out or weaken him	Move in and hold

- ♦ Rally 1 hits first. It does not need to win the tile — it needs to break or thin the defenders.
- ♦ Rally 2 follows and takes the tile. Its leader becomes the Defence Garrison Leader, so his timer starts.
- ♦ This is why Rally 2 is the defensive one: it is going to sit there.

	INF	CAV	ARC
Rally 1 — attack 50/10/40	5	1	4
Rally 2 — defense 60/40/0	6	4	0
Castle Team 20	11	5	4

HP Turret Team · 10 · South

- ♦ Open round: rally the Life Aerie (+50% Health).
- ♦ When the tower fight ends, there are two ways to help. Gather crystals, or reinforce the Palace. Your R4/R5 says which — clearly, every round. Do not guess and do not split.
- ♦ Never give up the tower. If a stronger alliance commits to it, ask Castle Team to help take it. Winning the tower means the next 30 minutes are fought with the buff on our side.

Lethality Turret Team · 10 · East

- ◆ Same plan as HP Turret, different tower: the Dragon Aerie (+50% Lethality).

One tower is good. Two towers is the goal.

- ◆ When the tower fight ends: gather crystals or reinforce the Palace — R4/R5 calls it.
- ◆ Never give up the tower. Ask Castle Team for help instead.

Support Team · 20 · spread around the map

- ◆ Players spread around the Border Region, shields up. Not bunched in one place.
- ◆ **Fight for a mine if you can win it. Every crystal counts, and crystals pay for every skill we fire.**
- ◆ Escorts are solo attacks. They cannot be rallied.
- ◆ **Move closer at 16:30 and stop farming at 17:15 — but only if we are sure we no longer need crystals. If skills are still being fired, keep farming.**

Crystal Skills

R4/R5 spend Pyrocrystals on skills for the whole alliance. There are 8.

SKILL	COST · TIME · CD	WHAT IT DOES
Swiftwing Express	20,000 · 10m · CD 30m	+100% march speed — only for troops sent while it is active
Dragonborn Gathering	20,000 · 10m · CD 30m	+50% Pyrocrystal gathering speed. Buy this one first.
Firebreath Shield	20,000 · 10m · CD 30m	Your Town defends much better
Dragonsoul Revival	10,000 · 10m · CD 30m	Half your losses from a town attack survive, injured
Dragonbreath Fury	35,000 · 10m · CD 20m	A beaten Town is thrown out to the Border Region for 10 min
Dragonblood Healing	40,000 · 10m · CD 60m	Half your injured from Palace and Aerie fights are healed
Dragonscale Armor	50,000 · 30m · CD 60m	+15% Attack and Defense for Palace and Aerie defenders
Dragonroar Rally	50,000 · 30m · CD 60m	+30% rally capacity
All 8 once	245,000	More than 8 farmers can gather in six hours. Choose what you skip.

The most valuable one is march speed. Every second a rally spends travelling is a second the Palace timer is not running for us.

There are no crystals at 12:00

Pyrocrystal mines appear 15 minutes after the Palace opens, then every 30 minutes.

- ◆ So the first skill cannot be fired until roughly 12:30.
- ◆ The 12:00 seize and the first tower round are fought with no crystal support at all.
- ◆ Nobody else has crystals either. The opening is decided by troops and heroes.
- ◆ **First purchase of the day: Dragonborn Gathering, around 12:15. It is the only skill that pays for itself, and only if bought early.**

One player, one troop type

Infantry, cavalry or archers. Never a mix.

- ◆ Your gear, charms and research are all on one type.
- ◆ A mixed march weakens all of them.
- ◆ **Agree your type with your team leader before the battle.**

How many troops to send

Rally capacity $\div$ 10 = your load.

EXAMPLE

$1,800,000 \div 10 = \mathbf{180,000 \text{ each}}$

WITH DRAGONROAR RALLY (+30%)

$2,340,000 \div 10 = \mathbf{234,000 \text{ each}}$

- ◆ Your R4/R5 calls the number. Match it — sending more can lock someone out of the rally.

Your hero decides your slot — not your tap

The rally takes the 4 highest-level Hero 1 first skills. Join order is only the tie-break.

- ◆ **Named carriers must have their Hero 1 first skill maxed.**
- ◆ If it is not maxed, a filler with a maxed skill beats you — no matter who tapped first.
- ◆ **If your first skill is weak, send no hero in slot 1. Your troops still count in full.**
- ◆ Tapping fast is not the mechanic. It only settles ties between equal skill levels.

CHECK SKILL LEVELS, NOT TAP ORDER

The core

SLOT	HERO
J1	Hilda
J2	Hilda
J3	Saul
J4	Chenko

- ◆ Same 4 for attack and defense. Every rally, every time.
- ◆ Your hero must be in your expedition team when you tap join.
- ◆ **Its first skill must be maxed, or a filler replaces you.**

Gen 6 setup. Adjust for your own heroes.

When to tap join

YOU ARE	TAP
Core J1–J4	NOW
Filler J5–J9	Wait 2 seconds

- ◆ The rally fills in 3 to 4 seconds. Everyone marches together.

This order is only the tie-break. The rally takes the 4 highest-level first skills; join time decides only when levels are equal.

The 3 formations

TYPE	RATIO	10 PLAYERS
Attack	50/20/30	5 INF · 2 CAV · 3 ARC
Attack	50/10/40	5 INF · 1 CAV · 4 ARC
Defense	60/40/0	6 INF · 4 CAV · 0 ARC

Only slots J6 to J9 change

SLOT	50/20/30	50/10/40	60/40/0
C-J5	same	same	same
J6	CAV	ARC	INF
J7	ARC	ARC	CAV
J8	ARC	ARC	CAV
J9	ARC	ARC	CAV

6 of 10 players never change what they send.

11:00 · the teleport scramble

Good tiles are gone in 60 seconds.

- ◆ Be online 15 minutes early. No scouting, no marching, no burning barricade.
- ◆ **Have 3 target tiles ready, not 1. If tile 1 is taken, drop on tile 2.**
- ◆ Whoever is going for the Palace should drop first, in the South-East, one tight group.

12:00 · the seize

- ◆ Rally 1 breaks the Old Guard.
- ◆ **Rally 2 lands and holds. Its leader becomes the Garrison Leader — the timer starts.**
- ◆ Both turret teams take their tower. This round has no buff yet.
- ◆ Everyone holds a rally march speedup ready. There are no crystals yet.

13:00 to 17:00 · the loop

Repeat every hour:

- ◆ Open half hour → turret teams fight for towers.
- ◆ Locked half hour → turret teams come to the Palace. Buffs are live.
- ◆ Rally 1 starts again every time the garrison breaks; Rally 2 retakes and holds.
- ◆ Support Team farms every 30 minutes.

An empty Palace second is lost forever.

This is a plan, not a rule book

- ◆ Every number here is an example. Your rally capacity and your heroes decide the real ones.
- ◆ Every team split here is a suggestion. Your alliance knows its own players.

THE PARTS WORTH COPYING EXACTLY

- ◆ One troop type per player
- ◆ The hero core joins first
- ◆ Two Aeries
- ◆ One crystal officer
- ◆ Never attack a town without a call

Bring your changes to the server chat before Sunday, not during the battle.
